500+ Color Names and codes

There is given a list of all **HTML color names** with hexadecimal code alphabetically. It is arranged from A to Z.

It is recommended to use hex values than html color names because it occupies less space. Whenever you minify your css file, it uses hex color value replacing html color names.

Let's see the list of 500+ html color names.

A color names

There is given a list of **13 color names** that starts with A letter.

Color Name	Color	Color Code
AliceBlue		#f0f8ff
